SITE ADDRESS:
Dernford Quarry
Dernford Lane
Duxford
CB55 5DY

OPENING TIMES:
7.30am - 5.30pm

PROCESSED SAND AND GRAVEL

Building on a strong trading relationship, London Rock Supplies have again teamed up with RJD at Dernford Quarry to process and market approximately 200,000 tonnes of natural sand and gravel.

Dernford Quarry, situated less than 10 minutes off the M11 between Great Shelford and Sawston, is the perfect location for customers taking materials into the Cambridgeshire area, or back loading into London.

Materials currently being processed or now available are: 10mm, 20mm and 40mm shingles, building sand and concreting sand with the option of natural ballast which can be mixed and graded to site specification.

The expansion of this joint venture between London Rock and RJD further demonstrates our commitment to supplying customers with quality products on demand to a larger geographical area.
